PORTLAND, SATURDAY, JUNE, D. 1896.

H. W. TE HODS OF NEWESTS

Judge Re Ry slaw Brolerick in a due Judg Terry slow Brokerick in a due 1 in pretext was lought by Terry and the duel was forted by hip. Brederick was by no meads as ideal at legan. The time and the shoution is with he we placed did not call for each It was a g ea, bing for national unity and matter a before the did not continue to the legan to divide the derivoration party in Californ a, sind a man of Dobler character and higher modbleds than Broderick could not have done it. Suderick, though not on a high plans done it. Traderick, though not on a high plane he politice accomplished tote, or maker was the hertrament laterigh which it was accomplished. A hetter may could have disc-red notating. As Califort at zen was, nobody would have fillowed a bester may. Had the demonstrate party of California remained united and under the control of the servenion wing of which Perry was a leader the Pacific states would have been involve | to be civil war. Hence the which reparied redered in dividing the deno-oratic party of Caffornia was incettanhe. The heat is regardered resulted in the duct, in beats exemplered resulted in the duet, in which he retiries but his death only made the diam setween the two sections of the party wider and the per, and the work that he had cone remnuted. Terry has lived all these rears but of it is extected 1 upon the Pacific stope as Burr after he sign Hamilton, was executable

THE STANDAY OREGONIAN disestrone a this time. It is soldon however, that Oregor weather Interferes with the crisis The war of January locali contain her decite. At unity was eming that which is beyond the con rol of horizin agency is a most unprofitable are of energy, and the Oregon farmer, as customed to trust to luck to many fustance wherein it elligent action would forestall di-" should trust to lack in this case and re-

THUESORY RECEIVED FOR IN

Tollet's It disn education bil intro love! Toked on contait a welcause of most fin in parents who are dislocation in the chail from a bit is government for training in marginal labor scale to be the lest in the world. with I dian plush in the line of in instructed ierenomies and sent back to her tribe, where terenome a family of half a dozen or more hald. hat in be said in his received penelit from tire tion which has established so wide a lawwayr.
I is not in homan nature, certainly not in

It is not in comminuative, occasing to an indian native, to aur near the difficulties of such surround use and solid them cling to ways of infination. The lendency of intire, so well dissipated to the return of the negle at field, three under the dominion of civilization to a sinte of native withness, is a fact that has fall enuncer the observation of the most careless. and the dominian of civilization to a state of native wildness, is a fact that has faired under the observation of the most carelles dreamer who has tro den the tangled by was and shady more of the country in midsummer. The return of Indian youth to the state from which they were temporarily rescould if now the proper temporarily rescould if now the they were temporarily rescould if now the state of the proper temporarily rescould if now the state of the proper temporarily rescould if now the state of the proper temporarily rescould if now the state of the proper temporarily rescould if now the state of the proper temporarily rescould be a state of the proper temporarily respectively. which they were temporarily rescued, if again abandoned to the idleness and fifth of their certain old Compares than the tribution of calibra-tion. Loogh of the effect of this educational effort might remain after a so out in of the years in such homes, succeeding the fire years in school, to keep allow an element of discountery. but beyond this it a return to primat conditions

but is point this it are form to primal conditues we take to complete.

If the government assumes to train these for dim children in the ways of economy, neatress and indistry, left he plan be bread enough to take them at manistrong enough to compet a fair compliance on the part of these whom it seeks to benefit. At test the effect will be alseeded with discouragement, with data, with decompliance. The course wait be stown and incompetations. Leaving wait be stown and incompetations. designed with dissolving state with the state with mean tender protection and benefits will not become from the spelling better. In in grain up and graph probably both that the state of the ladder should be with a state with a state of the ladder of the with are at wide thit mose with the sight full arrest to be dealt with. It manual I had exchools were estable and in sufficient had not not the attendance of all lightmoundation between the ages of e glund eighteen years, both ages doff live years was secured, as continued to the fill a mighty make would year the total profits the fill a mighty make would year. remain richt le de ree il end itingfalte, fu ness weuld to in le 1 no strini before an in each condidien is toward the softenaut of it e In tain prot est through the eggratiment. of netbeck of exclusion upon a people term by rature the neasure of whose

not be sufficiently to the substitute of the and the street of the will be attended to the street of th we ke ugo. The ortions here and there have beginning to required hit, that is to see, as true the base, or or or i bedieve us senitor at Washington to give all greenthe prominer cook in the "polumin" which he has altained from Islams. It is hit dyesse fi can that be man has set been from in Open a who cared so little for what is due to truth decenter, the public indement and his own 1694trum, as to unfertake the job for which Isham besengaged himself. And it has taken Muchell a ong time to fird one angwhere. But what Oregan couldn't soully, by perseverance he les frond thembers, boundow al employer hie Mitchell can always flud a sirvant like is am-somewhere in the world—though it of en requires hold mue and trouble, and trues the resources even of crafty and unscrupulous zet they to do it. It is one of the curredities of neture that where there is a demand there is a same a supply, and the principle is even in or free when there is a Jemand for sin things than for regulated things. Prostances of in aufeiling geset fins to fil when

ANOTHER INFOSTRION

There is confoly opered in figure union There is contoined and the mining matter as forces and friction of the mining matter as forces and friction from the first of the big party also of making in a table of the mining and an intermediate of the mining and a first of continuous as settle red to any all the exemples. r no Cert put the televal of the intermediate of interpretable and depth on the New O I shad as postern, upon the trends of the New O I shad as postern, upon the trends of the New O I shad as postern, upon the trends of the New O I shad from California and the shall advertise so far as he can, the Southern Pacific rule and as so far as he can, the bouthern Radifical roll and as the best and the apeat are a to Oregon Our commissioner, Walder, is in a position to accommissioner, which has been presented the action as a new this ratio when are the incoministic a New Orie cashap been presented to him. He is acked the side board of runnigration for factor with which is act this patholic to Linding the first of action is up independent of a teleprina exhibit, but the board has no find of the property of March 1 in with the first of ion by no accept the offer of the run hard later of ion by no accept the offer of the on his section 10 has no acceptance on a distribution in the table which tempinate been should be which the table the expense upon thousands a Worked for all the meded to make the exhibit at food a independent and entirely creditable.

The jetblug truck of St. I mi for the year 150 le put at Subsolo00, as compared with 50, 11 c0 in 1886. The proceed with 100 in 1886. The proceed man are 104 (creerles, \$11,150 000) dry gools, \$10,000 in drop drops, \$11,000 000 ments \$1.000 in 100 in 100

The numerically of Ongorethy has con-ided the water supply of its crosses for the the tree in the war rappy in the days for the tree is of \$100 as a rosult little ye can be retained the people of a city that to be ut in includy alical on the where question are entitled to smile approximally at each other where or rehards a facility described to smile approximately at each other where or rehards a facility definition.

The Edmonds Alermon bill passed the secretarity, is to With this enforcement it can statisfy fifth the pass the house. It begins to lock he if the saints would have to go Aliset we meet to the power of anything short of all this later one to the telephone to core in earl which has become routed in the hearts of a people as a choice one can man!

The purpose for which the great frames were perpetrated in the Ohio election text Orbibar's fulled. The sole of ject was to book Jojia Sharmen. But Sherman has sow been such at only phonogal of by the backbatter chartes and the rate just part three on joint taken will effect blim's at as well as if it were thirty.

It is a singular fact that this country, we be an exporter of all other grades is along to porter of harley. It seems that yet hard of the waters sates is not no for dry adapted to the man of the control the windown states is not prior what the resistance of the design of the windown states, and now it is not a compell do each latter product district for many spens and since 18th our appoint and other latter frequency is the second of the first of the second of the se thegen who did a good strike ing this profit the government for tribing in initial labor said to be the less in the worn a possible schools, to make them of the appears, observed by the said to be a first threat for the switched. If anything is to be done with I dain sputh in the line of infinite editions in the less than a first three principles than a first or a first triangle triangle than a first or a with It does point in the line of industrial editions of the point in the line of industrial editions of the point in the line of industrial editions of the contact of the of these didden, or such months as the parents willing y ross; to the giver it ment for industrial instruction, will but take away from their ween the integer place that they have in the will and integer place that they have in the will and integer place that they have in the will and integer place that they have in the will and integer place that they have in the will and integer place that they have in the will and integer place of the contact of the contact

PIONEER DAYS.

Jesse Looney of Tennessee, First Settler on the Santiam.

His Recollections of the Days of Yore-Life in the Santiam Valley-Mrs. Dr McLoughlin-John Kelley of Springfield. Written for the Sunday Oregonian ?

iwritten for the Sunday Oregonian
Jesse Looney's ancestry came from the mountain region of East Tennessee. He was born the region of East There was good yeogene's blood in his family, such as attains the highest place in our nation's history. He was a gonain place in our nation, and like him inharited affered Johnson, and like him inharited affered so one of the local conditions of his section, but adopted freedom as his conviction of right. Among the pioneers were many who left slavery behind and came to Oregon to found left havery behind and came to Oregon to found if free state. Among these were John P. Gaines, Our methods of ramining patients are the many who scientiff. The number of differed and perfect the scientiff of the force of the first of the force of the first Applements and mass have used the same induce-ments that actuated them and the Waldos. The Loopeys were well equipped for the plains. They had two great wagons with five yoke of They had two green wagons with a wer got in museuse cattle to each. Their trains were so begy that they often took the lead to break the war. They had enough spare oxen for another tenn also twenty or more head of choice cows and four very fine mares. One wagon was loaded with provisions. They had a great wagon load of meat, packed solid in the bed. One wagon

therishould fore streams. This precaution was very valuable to all this company, as they could rig up a ferryboat at short notice. So abundant was the supply of provisions that they brought some through to the Williamette after sanding many dividends to needy people on the plana. WINTER AT WHITMAN'S, ON THE WALLA WALLA. when they reached the common variety it was
late in the senson, so they described to wither
of Whitman's station, on the Walla Walla.

Here they hired an ado be boase, built by an old Here they hired an ind-be house, built by an old mile a mile active for Fleeby a perfectly and and place. Indian named Prince, that was located a mile because of a mile of life, the External and the futering a mile to tipe and the External and the futering and process and for that the so the interest of the futering and the futering and the futering and process of the futering and the futering by the natives But the Indians accordingly became sulfer and ill natured. At such times there would come to the house riding fine horses, armed to the teeth, and weezing their niteous wargaint. Mrs. Looney wis alarmed at their thresheams appearance, and Mr. Looney removed to another adobe house close by Dr. Whiman a Act they were making this change the Indians acted very ill unkneed. They manifested the same traits that finally led to the maskere in 48. Whitman advised the change, as they were not safe at this distance from white. as they were not safe at this distance from whit

as they were not safe at this distance from whitemen, isomey being the only man and who with
a helipless family. Their atoms actually fattened
during the winter, as there wiss no snow nor
may frost to damage, the grass. The Ouyuses
had singular ideas concerning property. When,
first on the Walla Walla some large
wolves got into the corral one night and
attagked a favorite brindle cow. They heard
the distributions among the dattle and run as fast. the disturbance among the dattle and ran na fas as they could, but the Cayness got there first and BEMOVAL TO THE WILLAMETTE VALLEY When spring came (1844) they left Whit-man's and drove all their stock to The Dailes,
